QUESTION 1

DRAG DROP

You are the Microsoft 365 administrator for a company.

Which release types are used for each deployment scenario?

Match each deployment scenario to its appropriate release type. To answer, drag the appropriate deployment scenarios to the correct release types. Each deployment scenario may be used once, more than once, or not at all. You may need

to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Answer Area

Deployment scenarios

Widespread deployment

Limited deployment for a short duration

Limited deployment for a small number of organizations for a short duration

Release type

Private release

Public Preview

General Availability

Deployment scenario

Correct Answer:

Answer Area

Deployment scenarios

Release type

Private release

Public Preview

General Availability

Deployment scenario

Limited deployment for a small number of organizations for a short duration

Limited deployment for a short duration

Widespread deployment

QUESTION 2

DRAG DROP

Match each Microsoft 365 feature to its availability.

Instructions: To answer, drag the appropriate feature from the column on the left to its availability on the right. Each feature may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

Select and Place:

Answer Area

Features	Availability	Feature
	Available to all customers	
Private preview	Can be turned on for evaluation.	
Public preview	Available to specific customers	
General availability	Compliance testing completed	
	Available for purchase	

Correct Answer:

Answer Area

Features	Availability	Feature
	Available to all customers	General availability
Private preview	Can be turned on for evaluation.	Public preview
Public preview	Available to specific customers	Private preview
General availability	Compliance testing completed	Private preview
	Available for purchase	General availability

QUESTION 3

HOTSPOT

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement	Yes	No
Compliance Manager performs an assessment against your entire Microsoft 365 environment and evaluates both Microsoft and customer controls.	<input type="radio"/>	<input type="radio"/>
Compliance Manager allows you to assign individuals within the organization to be responsible for the control.	<input type="radio"/>	<input type="radio"/>
Compliance Manager provides the ability to take corrective actions from within the Service Trust portal.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statement	Yes	No
Compliance Manager performs an assessment against your entire Microsoft 365 environment and evaluates both Microsoft and customer controls.	<input checked="" type="radio"/>	<input type="radio"/>
Compliance Manager allows you to assign individuals within the organization to be responsible for the control.	<input type="radio"/>	<input checked="" type="radio"/>
Compliance Manager provides the ability to take corrective actions from within the Service Trust portal.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 4

You are the Microsoft 365 administrator for a company.

All staff must use Microsoft Outlook to access corporate email. When users access Outlook on mobile devices, they must use a PIN to open the application.

You need to implement a Microsoft Intune policy to enforce the security requirements.

Which policy should you use?

- A. device compliance
- B. device configuration
- C. app protection
- D. app configuration

Correct Answer: C

Reference: <https://docs.microsoft.com/en-us/intune/app-protection-policy>

QUESTION 5

HOTSPOT

Users report that they are unable to access specific SharePoint sites.

You need to view the current health of Microsoft 365.

What should you do? To answer, select the appropriate option in the answer area.

Hot Area:

Answer Area

Navigate to the

	▼
Service request history page	
Service health page	
SharePoint product page	
Threat management dashboard	

Correct Answer:

Answer Area

Navigate to the

▼
Service request history page
Service health page
SharePoint product page
Threat management dashboard

QUESTION 6

You are the network administrator of a company.

The Microsoft 365 tenant contains sensitive information. Employees must verify their identities when they sign into Microsoft 365 by providing information in addition to their Azure AD password.

You need to select the tools that employees can use to verify their identities.

Which two tools should you select? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Customer Lockbox for Office 365
- B. Microsoft Security Center
- C. Windows Hello for Business
- D. Microsoft Authenticator

Correct Answer: CD

Two-step authentication can be implemented by using Windows Hello for Business or Microsoft Authenticator.

QUESTION 7

DRAG DROP

You are the Microsoft 365 administrator for a company.

You must provide infrastructure recommendations. All proposed solutions must minimize costs.

You need to identify the appropriate cloud model for the given scenarios.

Which cloud models should you use? To answer, drag the appropriate cloud models to the correct requirements. Each cloud model may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll

to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Cloud models	Requirement	Cloud model
Private	Provide an on-demand sandbox environment.	Cloud model
Public	Provide failover capabilities between resources that you manage and resources in other regions.	Cloud model
Hybrid	Deploy virtual machines that supports USB devices.	Cloud model

Correct Answer:

Cloud models	Requirement	Cloud model
Private	Provide an on-demand sandbox environment.	Public
Public	Provide failover capabilities between resources that you manage and resources in other regions.	Public
Hybrid	Deploy virtual machines that supports USB devices.	Hybrid

QUESTION 8

DRAG DROP

A company plans to deploy Microsoft 365.

You need to identify differences between the features in Exchange Online and Exchange Server.

Match the appropriate features to the corresponding supported environments. To answer, drag the appropriate

environments to the correct features. Each environment may be used once, more than once, or not at all. You may need to drag

the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Supported environments

Exchange Server only
Exchange Online only
Exchange Server and Exchange Online

Feature

Supported environments

Exchange Web Services (EWS) access to accounts

Supported environment

Custom EWS throttling settings

Supported environment

Information rights management, archiving, and legal holds

Supported environment

Correct Answer:

Supported environments

Exchange Server only
Exchange Online only
Exchange Server and Exchange Online

Feature

Supported environments

Exchange Web Services (EWS) access to accounts

Exchange Server and Exchange Online

Custom EWS throttling settings

Exchange Server only

Information rights management, archiving, and legal holds

QUESTION 9

DRAG DROP

A company has Microsoft 365 and uses Microsoft Endpoint Manager.

You need to identify the endpoint management tool associated with each action.

Which tool should you identify for each action? To answer, drag the appropriate tools to the correct actions. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Tools

Software Center
Configuration Manager
Microsoft Intune
Autopilot

Answer Area

Requirement

Manage employees' personal devices from the cloud.

Manage power settings for on-premises servers.

Tool

Correct Answer:

Tools

Software Center
Autopilot

Answer Area

Requirement

Manage employees' personal devices from the cloud.

Manage power settings for on-premises servers.

Tool

QUESTION 10

HOTSPOT

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement

Yes

No

Infrastructure as a Service (IaaS) provides servers, virtual machines (VMs), storage, networks, and operating systems to customers.

☐☐

Platform as a Service (PaaS) provides an environment for building, testing, and deploying software applications.

☐☐

Software as a Service (SaaS) provides an environment that is centrally hosted and managed for customers.

☐☐

Correct Answer:

Answer Area

Statement	Yes	No
Infrastructure as a Service (IaaS) provides servers, virtual machines (VMs), storage, networks, and operating systems to customers.	<input checked="" type="radio"/>	<input type="radio"/>
Platform as a Service (PaaS) provides an environment for building, testing, and deploying software applications.	<input checked="" type="radio"/>	<input type="radio"/>
Software as a Service (SaaS) provides an environment that is centrally hosted and managed for customers.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 11

You manage a local Active Directory Domain Services environment. Your company purchases an Enterprise E1 license for all users.

You need to implement self-service password reset. You want to achieve this goal while minimizing costs.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Upgrade your subscription to Azure AD Premium P2.
- B. Deploy Azure AD Connect.
- C. Deploy Azure Information Protection.
- D. Upgrade your subscription to Azure AD Premium P1.

Correct Answer: B

QUESTION 12

A small advertising company has 250 employees.

You need to migrate all users to Microsoft 365 and meet the following requirements:

1.
Provide a user-centric licensing solution for all users.
- 2.

Manage devices from a single location.

3.

Minimize licensing costs. Which licensing model should you use?

- A. Microsoft 365 Business
- B. Microsoft 365 Education
- C. Microsoft 365 Enterprise E3
- D. Microsoft 365 Enterprise E5

Correct Answer: A

Reference: <https://products.office.com/en-za/compare-all-microsoft-office-products?tab=2>

<https://docs.microsoft.com/en-us/microsoft-365/business/support/microsoft-365-business-faqs>

QUESTION 13

DRAG DROP

You are the Microsoft 365 administrator for a company.

You identify the following requirements:

Department	Office desktop products required	Requirements
acquisitions	Yes	Users require Office desktop products and must be able to schedule audio conferencing calls.
customer service	No	Users must be able to collaborate with other users and view their work schedules each week.
finance	Yes	You must automate investigation and response to threats against finance department content.
purchasing	Yes	Users require Office desktop products but do not require audio-conferencing capabilities.

You need to purchase Office 365 subscription based on the requirements for each department.

Which type of subscription should you use for each department? To answer, drag the appropriate license types to the correct departments. Each license type may be used once, more than once, or not at all. You may need to drag the split bar

between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Subscription types

Microsoft 365 F1

Microsoft 365 E3

Microsoft 365 E5

Answer Area

Department

acquisitions

customer service

finance

purchasing
