**QUESTION 1**

You build a custom AI Builder model and use it in Power Automate cloud flows.

Users report that they are not able to use the model in their flows.

You need to allow users to access the model in their flows.

Which action should you perform on the model?

A. share

B. edit

C. publish

D. train

Correct Answer: A

By sharing the model, you give other users or individuals the necessary permissions to use the model in their flows. Sharing the model allows users to leverage the AI capabilities of the model within their own Power Automate cloud flows, enabling them to integrate the model\'s functionality into their automation processes.

**QUESTION 2**

HOTSPOT

A company uses a third party application and an approval process via email. At the end of the month, the IT department enters the data into Microsoft Excel to create pivot charts.

The Excel pivot charts must use the same data source as Dynamics 365 Field Service to generate charts and reports.

You need to recommend a solution.

What should you recommend? To answer, select the appropriate configuration in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

## Answer Area

| Requirement | Solution |
|---|---|
| Create an approval workflow. | ▼ |
| | Dynamics 365 Workflow Notifications |
| | Microsoft Outlook Integration |
| | AI Builder |
| | Microsoft Flow |
| Connect to report data. | ▼ |
| | Common Data Service and Power BI |
| | Third-party from AppSource |
| | Custom Code flat file integration |
| | Dynamics 365 Field Service |

Correct Answer:

## Answer Area

| Requirement | Solution |
|---|---|
| Create an approval workflow. | ▼ |
| | Dynamics 365 Workflow Notifications |
| | Microsoft Outlook Integration |
| | AI Builder |
| | **Microsoft Flow** |
| Connect to report data. | ▼ |
| | **Common Data Service and Power BI** |
| | Third-party from AppSource |
| | Custom Code flat file integration |
| | Dynamics 365 Field Service |

**QUESTION 3**

HOTSPOT

Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

|  | Yes | No |
|---|---|---|
| Managed solutions can be used to group multiple Power Platform components together during solution development | ○ | ○ |
| Managed solutions must be used to distribute a Power Platform application on AppSource | ○ | ○ |
| Managed solutions always protect Power Platform components from editing when components are exported to another environment. | ○ | ○ |

Correct Answer:

|  | Yes | No |
|---|---|---|
| Managed solutions can be used to group multiple Power Platform components together during solution development | ● | ○ |
| Managed solutions must be used to distribute a Power Platform application on AppSource | ○ | ● |
| Managed solutions always protect Power Platform components from editing when components are exported to another environment. | ● | ○ |

Box 1: Yes

Managed solutions are used to deploy to any environment that isn\\'t a development environment for that solution.

Box 2: No

Unmanaged solutions can be exported either as unmanaged or managed.

Box 3: Yes

You can\\'t edit components directly within a managed solution. To edit managed components, first add them to an unmanaged solution.

https://docs.microsoft.com/en-us/power-platform/alm/solution-concepts-alm

**QUESTION 4**

A company creates canvas apps for its sales team.

A user creates a canvas app from a data source.

You need to determine the screens created.

Which three screens should you identify? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. welcome

B. edit/create

C. browse

D. details

E. delete

Correct Answer: BCD

**QUESTION 5**

You need to implement Microsoft Business Applications along with the Microsoft Power platform.

Which three Microsoft products are part of the Power platform? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

A. Microsoft Power Apps

B. Azure Active Directory

C. Microsoft Flow

D. Azure Machine Learning

E. Microsoft Power BI

Correct Answer: ACE

The Power Platform uses PowerApps, Power BI, and Power Automate (previously named Flow) to customize, extend, and build all the apps you need for your business and unlock the potential of Office 365 and Dynamics 365.

Reference: https://docs.microsoft.com/en-us/learn/powerplatform/

**QUESTION 6**

You have a Microsoft Excel workbook that contains a list of tasks for a project. You store the file in OneDrive for Business.

You need to create a canvas app that allows team members to update the status of their tasks.

What should you use?

A. the Generate an app from data feature

B. a custom action in Common Data Service

C. Power Apps Checker

D. the Open entity data in Excel feature

Correct Answer: A

Reference: https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/add-data-connection

**QUESTION 7**

A company plans to move an on-premises customer service data management system to a cloud-managed solution.

The customer service application must be replaced by a model-driven application. The company uses Microsoft SQL Server Integration Services (SSIS) packages to move data from the on-premises database system to a third-party enterprise

resource planning (ERP) system.

You need to replace the SSIS packages for data transfer.

What should the company use in place of the packages to move the data?

A. Microsoft Azure Data Lake

B. Power Virtual Agents

C. Data Migration Framework

D. Power Platform connector

Correct Answer: C

Data Migration Framework is a tool that can be used to migrate data from on-premises to cloud solutions such as Azure SQL Database and Azure SQL Data Warehouse, which can help to migrate data from SQL Server to ERP system on

cloud.

It is one of the option to consider along with A and B.

A. Power Platform connector and B. Microsoft Azure Data Lake are also valid options to consider depending on the

specific requirements and use cases. It is important to evaluate the different options and choose the one that best fits the company\\'s needs and goals for the data migration.

**QUESTION 8**

HOTSPOT

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Hot Area:

| | Yes | No |
|---|---|---|
| Security roles are modified in Microsoft Azure Active Directory | ○ | ○ |
| Security Roles are assigned to each table. | ○ | ○ |

Correct Answer:

| | Yes | No |
|---|---|---|
| Security roles are modified in Microsoft Azure Active Directory | ○ | ◉ |
| Security Roles are assigned to each table. | ○ | ◉ |

**QUESTION 9**

DRAG DROP

A company implements Microsoft Power Apps on the Microsoft Power Platform.

Sales team members must take photos of their travel expense receipts and enter basic information about purchases.

The accounting team must be able to view and update records in a shared Microsoft Excel document on mobile devices.

You need to select the type of Power Apps app for each scenario.

Which type of app should you use? To answer, drag the appropriate apps to the correct scenarios. Each app may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

**Apps**

| Canvas app |

| Model-driven app |

**Answer Area**

| Scenario | App |
| --- | --- |
| Sales team | App |
| Accounting team | App |

Correct Answer:

**Apps**

**Answer Area**

| Scenario | App |
| --- | --- |
| Sales team | Canvas app |
| Accounting team | Model-driven app |

1) Canvas app - As we can use camera control in the app 2) Model Driven - as the team would see the structured records sourced from MS excel

---

**QUESTION 10**

DRAG DROP

A company plans to build canvas apps that will be used within Microsoft Teams.

You need to identify the platform based on the design considerations.

To answer, drag the appropriate platforms to the correct design considerations.

Each platform may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

**Platforms**

| Dataverse | Dataverse for Teams |

**Answer Area**

**Design consideration**

Limit the number of rows to less than one million
that can exist for an application in Teams.

| Platform |

Ensure that professional developers have as many features
available as possible, such as API access, plug-ins, and more,
when developing applications for use within Teams.

| Platform |

Correct Answer:

**Platforms**

| | | | |
|---|---|---|---|

**Answer Area**

**Design consideration**

Limit the number of rows to less than one million
that can exist for an application in Teams.

Dataverse for Teams

Ensure that professional developers have as many features
available as possible, such as API access, plug-ins, and more,
when developing applications for use within Teams.

Dataverse

Box 1: Dataverse for Teams Over time, the data stored in the Dataverse for Teams environment will grow and eventually reach the capacity limit that these environments have (2 GB). At this point, existing apps will continue to operate but new applications won\'t be allowed to be created or installed. Customers will be directed to contact a tenant admin to upgrade the Dataverse for Teams environments to Dataverse and obtain more capacity.

Box 2: Dataverse

Reference: https://docs.microsoft.com/en-us/power-platform/admin/about-teams-environment

---

**QUESTION 11**

HOTSPOT

A company plans to create a workflow that periodically runs a Dynamics 365 action based on data in third-party cloud-based solutions.

Which features should you use to create the workflow? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

## Answer Area

| Action | Component |
|---|---|
| Ensure that Power Automate can interact with the third-party application. | ▼ <br> Triggers <br> Logic Apps <br> Connectors <br> Gateways |
| Periodically check for data changes in the third-party application. | ▼ <br> Actions <br> Triggers <br> Connectors <br> DirectQuery |

Correct Answer:

## Answer Area

| Action | Component |
|--------|-----------|
| Ensure that Power Automate can interact with the third-party application. | ▼ <br> Triggers <br> Logic Apps <br> **Connectors** <br> Gateways |
| Periodically check for data changes in the third-party application. | ▼ <br> **Actions** <br> Triggers <br> Connectors <br> DirectQuery |
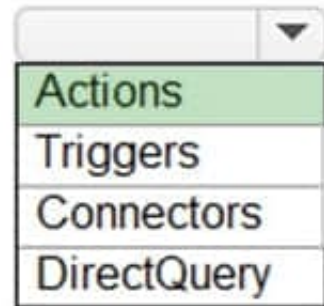

**QUESTION 12**

DRAG DROP

A company uses a model-driven app to manage customer data.

The company requires updates to the account table main form. The updates must be made within the app.

You need to make the required updates.

Which changes should you make to meet each requirement? To answer, drag the appropriate changes to the correct requirements. Each change may be used once, more than once, or not at all. You may need to drag the split bar between

panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

**Changes**

| Create a new column. | Edit the existing column. |

**Answer Area**

| Requirement | Change |
| --- | --- |
| Require the city to be selected from a drop-down instead of entered as text. | Change |
| Restrict the maximum number of characters of the Postal code column to 4. | Change |
| Remove the time component from the Last on hold time datetime column. | Change |

Correct Answer:

**Changes**

| Create a new column. | Edit the existing column. |

**Answer Area**

| Requirement | Change |
| --- | --- |
| Require the city to be selected from a drop-down instead of entered as text. | Edit the existing column. |
| Restrict the maximum number of characters of the Postal code column to 4. | Create a new column. |
| Remove the time component from the Last on hold time datetime column. | Create a new column. |

**QUESTION 13**

DRAG DROP

You are planning to deploy Power Pages websites.

You need to choose the appropriate type of template for each requirement for the websites.

Which types of templates should you use? To answer, drag the appropriate templates to the correct requirements. Each template may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to

view content.

NOTE: Each correct selection is worth one point.

Select and Place:

**Templates**

| Blank page | Customer self-service |
|---|---|
| Scenario-based | Site design |

**Answer Area**

| Requirement | Template |
|---|---|
| Provide building blocks for the site. | |
| Create a site that allows users to submit applications online. | |
| Create a site for Microsoft Dynamics 365 customers to access knowledge and support resources. | |
| Create a site with a single home page. | |

Correct Answer:

**Templates**

| | |
|---|---|
| | |
| | |

**Answer Area**

| Requirement | Template |
|---|---|
| Provide building blocks for the site. | Site design |
| Create a site that allows users to submit applications online. | Scenario-based |
| Create a site for Microsoft Dynamics 365 customers to access knowledge and support resources. | Customer self-service |
| Create a site with a single home page. | Blank page |

1. Site Design https://learn.microsoft.com/en-us/training/modules/power-pages-templates/introduction

2.scenario-based

https://learn.microsoft.com/en-us/training/modules/power-pages-templates/scenario

3.Customer self-service

https://learn.microsoft.com/en-us/training/modules/power-pages-templates/dynamics-365

4.Blank page template

create a completely custom website using our blank page template. This template includes a home page with a header, footer, and a single section.

https://learn.microsoft.com/en-us/power-pages/templates/

**QUESTION 14**

You create a Power Virtual Agents chatbot.

You need to share the bot with other team members so that they can try out the bot before you share the bot with customers.

What should you use?

A. demo website

B. live production website

C. test chat feature

Correct Answer: A

https://docs.microsoft.com/en-us/power-virtual-agents/publication-connect-bot-to-web-channels

**QUESTION 15**

DRAG DROP

A company is building a model-driven app.

You need to create and configure the objects needed for the app.

Which component categories should you use? To answer, drag the appropriate component categories to the correct objects. Each component category may be used once, more than once, or not at all. You may need to drag the split bar

between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Correct Answer:

| Component categories | Answer Area | |
| --- | --- | --- |
| | Object | Component category |
| UI | Relationship | Data |
| Data | Form | UI |
| Logic | Business rule | Logic |
| Visulaization | View | UI |
